DEERFIELD TOWN CODE

Chapter 202 -- SWIMMING POOLS

§ 202-1 Fence required.

Every outdoor swimming pool shall be considered to be a structure, with the exception of children's wading pools, but including all plastic pools or other synthetically manufactured pool constructed above ground, which constitute a hazard whether or not filled with water, and shall be completely surrounded at all times by a fence or wall not less than four feet in height above grade, which may be the pool wall itself.

§ 202-2 Standards.

Every such fence or wall shall be constructed as to not have opening, holes or gaps larger than four inches in any dimension except for doors, gates and picket fences; in the latter case, however, the gaps between pickets shall not exceed four inches.

§ 202-3 Gates or doors.

All gates or doors opening through such enclosure shall be of not less than four feet in height and shall be equipped with a self-closing and self-latching device located at least four feet above the underlying ground and inaccessible from the outside to small children. Every such gate or door shall be kept locked at all times when the swimming pool is not in use, and any ladders removed.

§ 202-4 Alternate protective devices.

A natural barrier, hedge, pool cover or other protective device approved by the Building Inspector may be used in lieu of a fence or wall so long as the degree of protection afforded by the substitute device or structure is not less than the protection afforded by the enclosure, gate and latch described herein.

[HISTORY: Adopted by the Board of Selectmen of the Town of Deerfield as indicated in article histories. Amendments noted where applicable.]

Information and Instructions

Massachusetts General Laws chapter 152 requires all employers to provide workers' compensation for their employees. Pursuant to this statute, an **employee** is defined as "...every person in the service of another under any contract of hire, express or implied, oral or written."

An **employer** is defined as "an individual, partnership, association, corporation or other legal entity, or any two or more of the foregoing engaged in a joint enterprise, and including the legal representatives of a deceased employer, or the receiver or trustee of an individual, partnership, association or other legal entity, employing employees. However the owner of a dwelling house having not more than three apartments and who resides therein, or the occupant of the dwelling house of another who employs persons to do maintenance, construction or repair work on such dwelling house or on the grounds or building appurtenant thereto shall not because of such employment be deemed to be an employer."

MGL chapter 152, §25C(6) also states that "**every state or local licensing agency shall withhold the issuance or renewal of a license or permit to operate a business or to construct buildings in the commonwealth for any applicant who has not produced acceptable evidence of compliance with the insurance coverage required.**" Additionally, MGL chapter 152, §25C(7) states "Neither the commonwealth nor any of its political subdivisions shall enter into any contract for the performance of public work until acceptable evidence of compliance with the insurance requirements of this chapter have been presented to the contracting authority."

Applicants

Please fill out the workers' compensation affidavit completely, by checking the boxes that apply to your situation and, if necessary, supply sub-contractor(s) name(s), address(es) and phone number(s) along with their certificate(s) of insurance. Limited Liability Companies (LLC) or Limited Liability Partnerships (LLP) with no employees other than the members or partners, are not required to carry workers' compensation insurance. If an LLC or LLP does have employees, a policy is required. Be advised that this affidavit may be submitted to the Department of Industrial Accidents for confirmation of insurance coverage. **Also be sure to sign and date the affidavit.** The affidavit should be returned to the city or town that the application for the permit or license is being requested, **not** the Department of Industrial Accidents. Should you have any questions regarding the law or if you are required to obtain a workers' compensation policy, please call the Department at the number listed below. Self-insured companies should enter their self-insurance license number on the appropriate line.

City or Town Officials

Please be sure that the affidavit is complete and printed legibly. The Department has provided a space at the bottom of the affidavit for you to fill out in the event the Office of Investigations has to contact you regarding the applicant. Please be sure to fill in the permit/license number which will be used as a reference number. In addition, an applicant that must submit multiple permit/license applications in any given year, need only submit one affidavit indicating current policy information (if necessary) and under "Job Site Address" the applicant should write "all locations in _____(city or town)." A copy of the affidavit that has been officially stamped or marked by the city or town may be provided to the applicant as proof that a valid affidavit is on file for future permits or licenses. A new affidavit must be filled out each year. Where a home owner or citizen is obtaining a license or permit not related to any business or commercial venture (i.e. a dog license or permit to burn leaves etc.) said person is NOT required to complete this affidavit.

The Office of Investigations would like to thank you in advance for your cooperation and should you have any questions, please do not hesitate to give us a call.
